Mid-Atlantic Regional 2003 Mid-Course Review

September 4, 2003

Jeff Bladen

Director – Wholesale Marketers – PJM Interconnection, LLC

Jeff Bladen leads the PJM Interconnection's newly created Department of Retail Market Integration. The new department will focus on enhancing PJM's understanding of and interface with state retail markets and stakeholders. Since joining PJM in June 2003, Mr. Bladen has played a key role in the ongoing formulation and evaluation of designs for PJM's existing and expanding markets.

Prior to joining PJM, Jeff Bladen spent six years helping to build a Mid-Atlantic retail business for Constellation NewEnergy (formerly AES NewEnergy & New Energy Ventures). He served in numerous roles with the most recent being Director of Wholesale Supply and Government Affairs for the Mid-Atlantic Region. Constellation NewEnergy is the nation's largest competitive retail energy supplier.

Mr. Bladen also has extensive experience in public policy having worked as an aide in the US Congress and Michigan and New York state legislatures. He holds a degree in Public Policy and Political Science from the Maxwell School of Public Affairs at Syracuse University.

Matthew Brown

Program Director – National Conference of State Legislatures (NCSL)

Matthew H. Brown is the director of the National Conference of State Legislatures' Energy Project. He is responsible for advising state legislators on energy issues. He and the Energy Project staff serve the needs of the 50 state legislatures on such issues as electric utility regulation, renewable energy, state energy planning, energy efficiency in buildings and alternative fuel vehicles. Mr. Brown has an extensive background in numerous areas of energy policy, and specializes in consulting services to state legislatures on these many complex issues.

On electric industry restructuring issues, Mr. Brown has been one of the country's most active national advisors to state legislatures. He is the author of numerous articles on the issue, and is called on by legislative leadership and committees on a regular basis to offer his services. He has spoken, sometimes on multiple occasions, before over half the nation's state legislatures. On these occasions he is usually a featured witness before legislative committees, frequently speaking and answering questions for a half to a full day or longer. He has also been called on to offer his services to legislative party caucuses and to legislative staff members.

Before joining the National Conference of State Legislatures, Mr. Brown was the Director of Special Projects for the City of New York Department of Telecommunications and Energy. In this capacity he worked closely with the State Energy Office and Public Service Commission on a variety of renewable energy and alternative fuel vehicle issues. His duties also included an effort to deploy more renewable energy installations in City facilities.

Mr. Brown holds a BA from Brown University in Providence, Rhode Island and an MBA from New York University.

Nora Mead Brownell

Commissioner – Federal Energy Regulatory Commission

Commissioner Brownell was nominated by President George W. Bush to serve on the Federal Energy Regulatory Commission (FERC) on April 30, 2001. She was confirmed by the United States Senate on May 25, 2001. Her term of office expires June 30, 2006.

Prior to joining FERC, Ms. Brownell served as a member of the Pennsylvania Public Utility Commission (PUC). During her tenure at the PUC, Ms. Brownell took an active role in the rollout of electric choice in Pennsylvania. In addition to her work in establishing the framework for one of the most successful retail electric markets in the country, Ms. Brownell was a leader in the administration of Pennsylvania's Electric Choice Consumer Education Program. She has an extensive background in communications, marketing and community relations that enabled her to effectively communicate the benefits of the program to community members.

Commissioner Brownell is the former President of the National Association of Regulatory Utility Commissioners (NARUC). She has served on the Boards of Times Publishing Company, Millennium Bank, Foundation of Architecture, Philadelphia Free Library, Need in Deed and Philadelphia Regional Performing Arts Center.

Roger E. Clark

Manager – Technology and Policy – Pennsylvania Sustainable Development Fund

Roger is an attorney who has worked for two and a half decades in energy. He currently works for The Reinvestment Fund in Philadelphia as Manager for Technology and Policy of the Sustainable Development Fund (www.trfund.com/sdf). SDF is a \$32 million fund that was created by the PECO Energy restructuring case in Pennsylvania to financially support the expansion of renewable energy, energy conservation and sustainable energy businesses.

Roger also works for the Clean Energy States Alliance, (www.cleanenergystates.org) a program that provides information, performs technical analysis and initiates joint activity among the fourteen states that have created clean energy funds

From early 1997 through mid 1999, Roger actively represented a number of environmental and consumer organizations in the various electric utility restructuring proceedings in Pennsylvania. He successfully pushed for net metering, interconnection, the sustainable energy funds, the renewable portfolio standard and the renewable energy pilot program provisions in the Pennsylvania restructuring settlements.

In 1993, Roger created the Nonprofits Energy Savings Investment Program with a grant from The Pew Charitable Trusts to help nonprofit organizations in the Philadelphia area reduce their energy bills through energy conservation improvements. Now housed at The Reinvestment Fund, NESIP has worked with approximately 275 nonprofit organizations.

Before starting NESIP in 1993, Roger was Chief Counsel for the Pennsylvania Energy Office. Before that, he worked for Legal Services programs in Carlisle, Pennsylvania and Fairbanks, Alaska.

Roger got his B.A. from Carleton College (with a year in France) and his J.D. from George Washington University. He is married and has two children. His personal interests include sailing, hiking, art and architecture.

Susan Covino

Manager – Demand Side Response – PJM Interconnection, LLC

Susan Covino is the Manager for Demand Side Response at PJM. She previously served The New Power Company as a Director, Government Affairs covering New Jersey, New York, Connecticut, PJM, and FERC. Prior to that Ms. Covino was a Director, Government Affairs covering gas and electric matters for Enron in the mid-Atlantic and northeast regions of the U.S.

Ms. Covino served as Vice President and General Counsel of KCS Energy Marketing, Inc. from 1992 to 1997. She began her career in the energy industry as a Staff Attorney for Elizabethtown Gas in 1978. She was graduated from Dickinson School of Law with a Juris Doctor degree in 1978 and from the University of Connecticut summa cum laude with a double major in economics and history in 1975. Ms. Covino is a member of Phi Beta Kappa.

Terrance J. Fitzpatrick

Commissioner – Pennsylvania Public Utility Commission

Terrance J. Fitzpatrick was appointed Chairman of the Pennsylvania Public Utility Commission by Governor Edward G. Rendell on May 20, 2003. He has served as a Commissioner since November 10, 1999. Before joining the Commission, he practiced utility and environmental law in the Harrisburg office of Ryan, Russell, Ogden & Seltzer LLP. From 1995 to 1997, he served as counsel to State Senator David J. Brightbill, Chairman of the Environmental Resources and Energy Committee, and he helped to draft the Electricity Generation Customer Choice and Competition Act.

Earlier in his career, Chairman Fitzpatrick was an assistant counsel with the Commission and was a member of the Pennsylvania Environmental Hearing Board. He has also served as a member of the Pennsylvania 21st Century Environment Commission and as a member of Borough Council in Hummelstown, PA.

Chairman Fitzpatrick is a graduate of East Stroudsburg University and the University of Dayton School of Law. His term expires, March 31, 2004.

Jeanne M. Fox

President – New Jersey Board of Public Utilities

Chair - National Council on Electricity Policy

Jeanne M. Fox is President of the Board of Public Utilities (BPU) and serves as a member of the Governor's Cabinet. President Fox returned to the BPU where she worked from December 1981 to February 1991.

Ms. Fox formerly was Regional Administrator of the United States Environmental Protection Agency and Commissioner and Deputy Commissioner of the New Jersey Department of Environmental Protection.

Ms. Fox is the recipient of numerous awards. She has also been a Visiting Distinguished Lecturer at the Bloustein School at Rutgers University, and the Woodrow Wilson School at Princeton University.

Ms. Fox serves on numerous boards including the Girl Scout Council of Delaware-Raritan Inc.; and the Bipartisan Coalition for Women's Appointments.

Ms. Fox received a Bachelor's Degree from Douglass College, Rutgers and a Juris Doctor from the Rutgers University School of Law.

Jeffrey Genzer

Counsel – National Association of State Energy Officials (NASEO)

Jeff Genzer is a partner at the firm of Duncan, Weinberg, Genzer and Pembroke, P.C.

Mr. Genzer practices energy, utility and environmental law. He also serves as counsel to a number of national associations. Mr. Genzer has been counsel to the National Association of State Energy Officials (NASEO) since its inception in 1986. NASEO represents the states on energy policy issues. He is also counsel to the National Energy Assistance Directors' Association, which represents the state offices in charge of the Low-Income Home Energy Assistance Program. Mr. Genzer also represents the Energy Programs Consortium and the National Association of Energy Service Companies. Prior to entering private law practice in 1985, Mr. Genzer was the staff counsel and energy lobbyist for the National Governors' Association.

His practice involves work before federal and state legislative bodies and administrative agencies, including state public service commissions and the Federal Energy Regulatory Commission, as well as the Department of Energy and the U.S. Environmental Protection Agency.

He is a graduate of Haverford College and the Washington College of Law of American University. He resides in Silver Spring, Maryland, with his wife and four children.

Craig Glazer

Vice President – Governmental Policy - PJM Interconnection, LLC

Craig Glazer is responsible for coordinating PJM's regulatory and legislative activities before the Federal Energy Regulatory Commission (FERC), the State PUCs, state legislatures, and the U.S. Congress.

Prior to joining PJM, Mr. Glazer served as Commissioner and as Chairman of the Public Utilities Commission of Ohio. During his tenure on the Ohio Commission, Mr. Glazer oversaw Ohio's development of customer choice in telecommunications, natural gas, and electricity. In addition, Mr. Glazer was very active in development of regional transmission organizations throughout the Midwest and played a key role in FERC's RTO collaborative process. Mr. Glazer served as a member of the Board of Directors of the National Association of Regulatory Utility Commissioners (NARUC), Chairman of its International Relations Committee and as an active member of its Electricity Committee. He also served as Chairman of the National Council on Competition in the Electric Industry, a policy consortium made up of NARUC, FERC, U.S. EPA, the National Conference of State Legislatures, and the National Association of State Energy Officials.

He is a graduate of the University of Pennsylvania and Vanderbilt University School of Law.

John Hanger

President & CEO – PennFuture

Mr. Hanger is the President and CEO of Citizens for Pennsylvania's Future (PennFuture), a public policy research and advocacy organization devoted to improving Pennsylvania's environment. He is a former public official and has 18 years of legal experience.

Since 1998, John has been building PennFuture and working on its mission of creating a just future where nature, communities and the economy thrive. As President of PennFuture, John works with a staff of 16 in offices in Philadelphia, Harrisburg and Pittsburgh. PennFuture serves as a watchdog of state government to enforce existing environmental laws and to transform markets in order to conserve Pennsylvania's natural resources. PennFuture focuses on issues in four areas: energy and the environment, mining, watershed protection and air quality. John is particularly involved with PennFuture's work to promote clean energy technologies and to increase the supply and demand for clean electricity products.

Mr. Hanger was recently appointed as Co-Chair of Governor-Elect Rendell's Energy and Telecommunications Transition Team.

From April 1993 to June 1998, John was a Commissioner with the Pennsylvania Public Utility Commission (PUC). John served on the Electricity Committee, the Consumer Affairs Committee, and the Committee on Energy Resources and the Environment of the National Association of Regulatory Utility Commissioners (NARUC). He advocated for policies that allow consumers to choose their electric, gas, and telephone companies, for policies that assist low-income families, and those that benefit the environment, such as net metering, energy conservation, and renewable energy.

As an expert on energy and environment issues, public utility regulation, and competition in the electricity, gas and telephone industries, Mr. Hanger has testified before the U.S. Congress and many state legislatures. He has authored numerous articles, written leading regulatory decisions and lectured widely to diverse audiences.

Prior to becoming Commissioner, Mr. Hanger served as legal counsel to Pennsylvania Public Utility Commissioner Joseph Rhodes from 1988 to 1993. From 1984 to 1998, he worked at Community Legal Services, Inc. of Philadelphia, serving as Public Advocate representing 500,000 municipal customers of the City of Philadelphia's municipal gas, water, and sewer utilities.

A 1979 graduate of Duke University and a 1984 graduate of the University of Pennsylvania School of Law, Mr. Hanger is married to Dr. Luanne Thorndyke. They have two children, Matthew and Vanessa.

Bradley W. Johnson

Energy Consultant – Oak Ridge National Laboratory

Mr. Johnson currently works as an energy consultant for Oak Ridge National Laboratory where he provides technical support to the U.S. Department of Energy's distributed energy and transmission and distribution program areas. Previously, Mr. Johnson was employed for four years as the President and Chief Operating Officer of Pepco Technologies, a non-regulated utility subsidiary. Mr. Johnson led Pepco Technologies through its start-up phase and oversaw the launch of the company's first commercial product, GenerLink, a low cost plug-and-play interconnection platform for interconnecting distributed resources. Prior to Pepco Technologies, Mr. Johnson held a variety of senior management positions with major electric utility companies and energy consulting companies over a twenty-year period where he has responsible for strategic planning, integrated resource planning, strategic market development and independent power producer functions.

Mr. Johnson is a former board member of the Energy Storage Association and Chaired the EV America electric vehicle commercialization collaborative between DOE and the electric utility industry. Mr. Johnson has a B.A. degree in economics and an MBA degree – both from The College of William and Mary.

Laura J. Manz

Director – Interregional Transmission, Public Service Enterprise Group

Laura Manz is the Director – Interregional Transmission for Public Service Enterprise Group (PSEG) based in Newark, New Jersey. PSEG is a diversified energy company (NYSE:PEG) headquartered in Newark, N.J. PSEG subsidiaries include: PSE&G, New Jersey's oldest and largest combined public gas and electric utility; PSEG Power, a major regional independent power producer; and, PSEG Holdings which includes other unregulated energy businesses. PSEG was founded in 1903 and is celebrating its 100th anniversary this year.

She is currently responsible for the development of workable market rules for the competitive electric industry. She has advocated the adoption of fair rules for competition among all competitors in the industry, including generation, demand-side and transmission businesses. She has been a panelist for the technical conferences held by the Federal Energy Regulatory Commission (FERC). She has been sought out by several forming RTOs to share her expertise and has also been an invited speaker to

discuss electric restructuring with state commissions and energy boards and industry representatives both nationally and internationally.

Ms. Manz has been actively involved with the formulation of PJM as an RTO, primarily through the PJM Members Committee and Energy Market Committee, helping to establish the rules for an open spot market, locational pricing with multi-settlements, congestion management, and financial transmission rights and support for retail choice. Along with members of the other Supporting Companies, she helped implement LMP for congestion pricing for the PJM region. At the retail level, Ms. Manz designed and managed the settlement infrastructure and ISO interface to support electric competition, which began in New Jersey in October 1999. She serves on the steering committee of the ISO/MOU Working Group responsible for developing coordinated markets in the Northeast.

Prior to her work on PJM restructuring, Ms. Manz held various technical and managerial positions at PSE&G, including Manager – Transmission Planning, Manager – Retail Settlements, and Senior System Operator of the PSE&G power grid.

Ms. Manz received a BS degree in Electrical Engineering from Lafayette College and a MBA from Drexel University.

Ms. Manz has been a speaker and chair at numerous conferences and workshops dealing with electric restructuring, focusing on retail and wholesale restructuring, pricing rules, settlement systems and reliability and planning issues. She is a Senior Member of the IEEE, and appears in “Who’s Who of International Professionals”. She is a recipient of the Tribute to Women in Industry (TWIN) Award.

Harris B. McDowell

Senate Majority Leader – Delaware State Senate

Education: Tower Hill School, University of Delaware, Georgetown University
State Senator 1976- present, Majority Whip 1981-82, 87- 88, 91-93, 97-99, Majority Leader 2003 - present

Committee Assignments:

Children Youth & Families

Thomas H. Rawls

Chief Environmental Officer – Green Mountain Energy Company

Thomas H. Rawls joined Green Mountain Energy Company at its formation in 1997 as director of environmental affairs. Tom became chief environmental officer in January of

1999 and currently manages relationships with the environmental community, sets environmental standards for the company's business practices, and plays an integral part in the development of the company's renewable energy products. Tom also took on the added role of general manager of Green Mountain Energy Company's Eastern region (New Jersey, New York, and Pennsylvania) in June 2003. In this position, Tom is responsible for the business operations, strategic planning, sales and profit and loss for Green Mountain Energy Company in the East.

Prior to joining Green Mountain Energy Company, Tom spent five years working in both public affairs and marketing roles at Green Mountain Power Corporation, an investor-owned utility in Vermont. Previously, Tom spent time as a journalist and magazine editor. He is the author of *Small Places, In Search of a Vanishing America* (Little, Brown) and has been chief editor of *Country Journal* and *Harrowsmith*, both magazines devoted to topics about the environment and rural life. Tom was also the founding editor of *Natural Health*.

In September 2002, Tom was selected to receive the Green Power Pioneer Award for his outstanding contribution to the development of the "green" power markets built on customer choice.

Kenneth D. Schisler

Commissioner – Public Service Commission – Maryland

Born in Baltimore, Maryland, July 31, 1969; Salisbury State University, B.S. (biology), 1992; University of Maryland School of Law, J.D., 1998. Admitted to Maryland Bar, 1999. Member of House of Delegates, January 9, 1991 to June 30, 2003. House Minority Whip, 2002-03. Member, Environmental Matters Committee, 1991-2003 (Environmental & Natural Resources Subcommittee, 1995-99; Agriculture, Environment & Natural Resources Subcommittee, 1999-2003; Public Utilities Subcommittee, 1999-2003; Ethics Subcommittee, 2003; Motor Vehicles & Transportation Subcommittee, 2003; Natural Resources Subcommittee, 2003); Joint Committee on Chesapeake Bay Critical Areas, 1992-2003. Deputy Minority Whip, 1994-97. Member, Department of Natural Resources Special Funds Work Group, 2002-03; Joint Committee on the Selection of the State Treasurer, 2003. Chair, Talbot County Delegation. Chair, Eastern Shore Delegation, 2003. Member, American Legislative Exchange Council (task force on energy, environment, & natural resources). Member, Task Force to Study Retail Electric Competition and the Restructuring of the Electric Utility Industry, 1997-98; Solid Waste Management Task Force, 1998; Associate Attorney at the Easton law firm of Cowdrey, Thompson and Karsten. Assumed Chairmanship of Public Service Commission on July 1, 2003, current five-year term ends June 30, 2008; married with three children.

Richard P. Sedano

Principal – Regulatory Assistance Project

Providing policy and technical assistance to governments on energy matters through research, instructional programs and papers. RAP has advised and trained decision-makers in more than 40 states and in a dozen other countries

Co-executive Director, National Council on Competition and the Electric Industry (an association of government officials directing power sector reform in the United States) - 2001.

Board member, Northeast Energy Efficiency Partnerships – 2001.

Member, Advisory Committee to Board of Directors, ISO-New England Inc. – 2000 to present.

Founder and Board member, Evermont (a non-profit organization dedicated to putting more alternative fueled vehicles on the road) – 1993 – present.

Founder, Secretary and Board member, Vermont Telecommunications Advancement Center (a non-profit organization dedicated to promoting the use of advanced telecommunications services by small businesses in Vermont) – 1996 - present.

Ed Toppi

Director – New Energy

Ed Toppi has been hired as the new team leader for the PA group. Ed has been an active player in the Pennsylvania competitive retail market since September 1997. Between September 1997 and July 1998, Ed managed the supply and operations functions of Energis Resources (PSE&G's retail arm). Since August 1998 Ed has helped to manage PECO's relationships with external generation suppliers. Ed has also worked from time to time with Steven Fernands on PJM projects. Ed is currently winding up his responsibilities at PECO and will be on board in the PA office by mid-May.

Michael Winka

Director – Office of Clean Energy

Mike is the Director of the Board's newly established Office of Clean Energy. He manages the New Jersey State Energy Program and the New Jersey Clean Energy Program. The Office is responsible for promoting energy efficiency, clean energy generation and renewable energy generation through the various regulatory and non-regulatory tools available to NJBPU.

Mike worked for the New Jersey Department of Environmental Protection for 22 years. His past duties included Chief in the NJDEP's Bureau of Resource Recovery and Administrator for the NJDEP's Office of Innovative Technology and Market Development.

Mike was responsible for overall management of the NJ Sustainability Greenhouse Gas/Climate Change Action Plan.
